FOR THE BEST LAWN IN TOWN

ESTABLISHING  
THE

## ESSENTIAL DISTINCTIONS

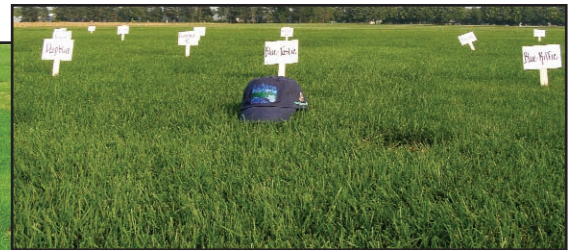

Sunlight shining on green grass is one of nature's most beautiful sights. Recent tests have shown that a grass plant's efficiency in converting the sun's energy into chemical energy and its ability to ward off disease can be assessed. This knowledge is important because it can be used to determine a grass plant's ability to succeed.

The photo-chemical efficiency test and the antioxidant test were used in the development of BLUE-TASTIC KENTUCKY BLUEGRASS.

## Blue-Tastic Kentucky Bluegrass

**Variety Name:** Blue-Tastic  
**Kind:** Kentucky  
Bluegrass  
**Genus:** Poa  
**Species:** pratensis  
**Experimental  
Designations:** 1B7-308

Blue-Tastic is a  
Blue Panther  
Kentucky  
Bluegrass  
variety.
